**MARATHON GOLD** Developing the Valentine Gold Project

@MarathonGoldMOZ info@marathon-gold.com  
TSX: MOZ / www.marathon-gold.com

Valentine Gold project located in the Central Region of Newfoundland Labrador is one of the top mining jurisdictions in the world. The project comprises a series of four mineralized deposits along a 20-kilometre system and once developed, the Valentine Gold Project will be the largest gold mine in Atlantic Canada.

Based on a Feasibility Study released in April 2021, the Valentine Gold Project is expected to have a 13 year mine life based on conventional open pit mining and milling.

First production is scheduled for 2023.

The Valentine Gold project will have a significant impact on the economy of the Central Region, with over 400 jobs during construction and operation, and over \$100 million of annual average purchasing of goods and services.

Marathon's objective is the financing, development and successful operation of the Valentine Gold Project and seek to accomplish this with zero harm to our people, with the protection of the environment, and respect for communities and indigenous groups.
